Experience

Math Tutor (Co-op), Humber Polytechnic — North & Lakeshore Campuses

Jan 2026 – Apr 2026

- Delivered one-on-one, group, drop-in, and appointment-based tutoring in mathematics, calculus, statistics, and physics to college (Humber) and university (Guelph-Humber) students across two campuses
- Promoted the Math & Writing Centre through class visits and tabling; led review sessions, workshops, and exam prep for calculus and physics courses; created material related to algebra, calculus, physics and more using LaTeX; received the highest rating amongst students (4.8/5 stars)

Merchandiser at The Brick

Aug 2025 - Nov 2025

- Collaborated and built floor models and other furniture items; maintained older models up to company standards to attract more sales, helped set-up store events and served food to customers.
- Assisted customers when picking up products, including wrapping the products, loading the products into the customer's vehicle, assisting customers with paperwork and more to guarantee a hassle-free experience

Additional Experience

- **NASA Space Apps:** Built and trained ML models on NASA's data with web app integration to classify exoplanets
- **Tutoring:** CRLA certified; Tutored Grade 9 mathematics; Volunteered at UW Physics Tutorial Centre (130+ hours, Fall 2025 — received Certificate of Appreciation for highest volunteer hours); Recruited by Varsity Tutors
- **PackVault:** Worked on the UI and UX of a collection tracking web app for trading cards with price integration aimed towards helping vendors manage and track inventory
- **Remote Workstation:** Set up a remote PC control system using Node.js Discord bot, Oracle Cloud Ubuntu VPS, Tailscale, Parsec, and a secured Flask Windows agent
- **Local AI agent:** Set up a locally hosted AI agent using OpenClaw, Gemma 4, LM Studio and Ollama
